## Career Objective

Unix C and shell programmer with 26 years of professional experience, seeking a full-time work-from-home position or contract work writing C code and/or shell scripts on Linux or other Unix-like OS. TCP/IP and client/server related code is a specialty.

## Professional experience

*Information Resource Technology, Wexford, PA*

Senior programmer (part of acquired *WordStock* team), January 2019 - July 2019

- Wrote and maintained a suite of system-wide, integrated, cooperating C programs and libraries on QNX4 OS.
- Wrote and maintained a very large library of shell scripts supporting the core product software on QNX4.
- Worked with Support to solve various issues at customer sites.

*WordStock, Inc., Arlington, MA (now owned by above IRT)*

Senior programmer, August 1993 - December 2018

- Wrote and maintained a suite of system-wide, integrated, cooperating C programs and libraries on QNX3, QNX4, and Linux.
- Wrote and maintained a very large library of shell scripts supporting the core product software on QNX4 and Linux.
- Worked with Support to solve various issues at customer sites.
- Wrote extensive documentation for Support and other programmers.
- Specialized in TCP/IP and client/server related code and issues.
- Ported *OpenSSL*, *OpenSSH*, *curl*, *Apache*, *Perl*, and various other open source packages to QNX4.

## Education

*University of New Hampshire, Durham, NH*

Bachelor of Science in Computer Science, 1989 - 1993

## Additional Experience

Administrator of the *Unix Socket FAQ* (<http://developerweb.net/>), 2002 - present
